Course Description			For Office Use Only

At Pivotal Data U we are engaged in a continuous improvement effort. Please take the time to fill out this survey as thoughtfully and constructively as possible. Your opinion counts!

This survey is divided into two sections: Course Design and Faculty Effectiveness. Please remember that you are only evaluating this course and this instructor at this time. If you want to make comments about other parts of the institution (financial aid, parking, advising, etc.), you will have an opportunity to evaluate those services at another time.

For each question, you should fill in the circle to the left of the number of the response that most closely fits.

Your responses and comments are completely confidential.

A. **Course Design:** Please evaluate how well the course is designed. Your course may have been designed by a course design team or by an individual faculty member. A well-designed course states the specific learning outcomes that are desired. The course presentations, materials, assignments, and tests should all contribute to these desired outcomes.
